INTRODUCTION

AirlineE RESERVATION SYSTEM is an helpful website , where user him or her self can find their flights and booked their flights,

ACKNOWLEDGMENT

We are writing this to declare that all the work which is being written below in this Project is a record of our own work submitted to eprojects@ac.in in the partial fulfillment for the eProject. We would also want to appreciate the this concept of eProject as it was very helpful tool for us to Polish.

our capabilities and skills. And last but not the least we are extremely grateful to the whole faculty and administration of Aptech,

for providing us all the facilities that were mandatory, without which this project could not be a success.

ABSTRACT

The Topic Of Our Project Was To Develop A Website For “AIRLINE RESERVATION SYSTEM”.

It's Made by Using SQL ASP.NET MVC Mainly.

NEED OF PROJECT

- o Some of the benefits of E Project are as under: -
- o Re-enforcement of Skills happens in the experiential learning process.
- o A mentor, ensuring that you do not get drifted, constantly guides you.
- o It gives you a lot of confidence to face an interview as you have worked on a project.
- o A nice, final, black, hardbound report adds to you credentials and enhances your job prospects.
- o EProjects is compulsory (Sem-End Project) and is supposed to be done over and above the assignments given in your course books.
- o It is advised that if a student follows the projects and submits assignments, he would definitely edge over the students.
